	child qualifies for immunization through the Connecticut VFC Program is e he/she (check only one box): Is enrolled in Medicaid				
(B)	Has no health insurance/self pay				
(C)	Is American Indian or Alaskan Native				
(D)	Underinsured: can receive VFC vaccines (Pneumococcal Conjugate, Influenza, Hepatitis A, Rotavirus, and HPV) at a Federally Qualified Health Center (FQHC)				
(E)	*Private Insurance				

Patient Eligibility Screening Record

*Note private insurance patients can receive all vaccines from the Connecticut Immunization Program except for Pneumococcal Conjugate, Influenza, Hepatitis A, Rotavirus, and Human Papillomavirus vaccine (HPV) which are only available for patients in categories A, B, C, & D.

A record must be kept in the healthcare provider's office that reflects the status of all children 18 years of age and younger who receive vaccine from the Connecticut VFC Program. The record may be completed by the parent, guardian, or individual of record, or by the healthcare provider. The record does not have to be updated unless the status of the child has changed. While verification of responses is not required, it is necessary to retain this or a similar record for each child receiving vaccine.
